Introduction

MAN INFRA HEAVY EQUIPMENT RENTAL LLC is an upcoming UAE-based company specializing in certified heavy equipment rental, engineered lifting solutions, and civil infrastructure support services. It is a subsidiary of MMAN INFRA PROJECT & ENGINEERING PVT LTD, a company established in India since 2004. We bring in the expertise of our parent company, which has vast experience in the related field.

With a modern fleet, trained operators, and a strong commitment to safety, we support highways, utility networks, industrial plants, residential and commercial developments, pipelines, and precast structures. Our objective is to deliver safe, reliable, and cost-effective solutions that enhance project efficiency and performance.

Core Activities:

- Rental of Certified Premium Heavy Equipment & Machinery
- Earth Works & Bulk Excavation
- Variant Lifting, Heavy Lifting & AC Chiller Lifting
- Erection & Dismantling of Tower Cranes
- Operations and Maintenance Services
- Precast Effective Leasing Solutions
- Water Pipeline Installation
- Civil & Infrastructure Project Support

Our Experties

MAN Infra Heavy Equipment Rental LLC brings decades of experience in delivering complete lifting and infrastructure solutions. Our offerings support both short-term and long-term project requirements.

Our key areas of expertise include:

- Heavy Lift Planning and Engineering
- Tower Crane Erection and Dismantling
- Pipeline & Utility Network Installation
- Earthworks, Site Preparation & Leveling
- Rental of Certified Premium Heavy Equipment
- Rigging, Lifting and AC Chiller Lifting
- Substation & Industrial Plant Support
- Precast Lifting & Installation Solutions

We employ highly skilled operators, technicians, and engineers to ensure safe, efficient, and compliant operations at all times.

Quality & HSE Policy

At MAN Infra, we are committed to excellence in Quality, Health, Safety and Environment (HSE). Our integrated HSE policy ensures:

- Safe working practices across all operations
- Compliance with UAE regulatory requirements
- Prevention of occupational accidents & injuries
- Regular training and certification for all team members
- Proactive risk identification and mitigation
- Responsible environmental management (dust, noise, waste control)

Our goal is to maintain a zero-accident work culture by applying internationally accepted safety standards.

Safety Plan & HSE

Safety Plan

Prioritizing the safety of our employees, clients, and the public, all operations are performed under approved risk assessments, method statements, and lifting plans.

Our HSE Management System Covers:

- Zero-Incident Policy & Preventive Safety Framework
- Job Hazard Analysis (JHA) for every operation
- Emergency Response Plans (fire, medical, spills, rescue)
- Trained & certified crane operators and riggers
- Strict PPE enforcement
- Regular inspection & maintenance of equipment
- Continuous HSE improvements and audits

Site Safety Education & Training Program

1. Safety Policies & Procedures
Clear safety rules communicated and implemented across all work sites.
2. Hazard Identification & Risk Assessment
Training to recognize jobsite hazards and apply control measures.
3. Safety Training Modules
Includes PPE compliance, fire safety, electrical safety, hazard communication, first aid, etc.
4. Practical Demonstrations
Hands-on training for equipment use, emergency actions, and safe lifting practices.
5. Emergency Response Preparedness
Fire drills, evacuation tests, and emergency simulations conducted regularly.
6. Supervisor & Management Safety Training
Training supervisors to enforce safety and lead by example.
7. Toolbox Meetings
Daily pre-work toolbox talk conducted by the supervisor/foreman.

Insurance

MAN Infra Heavy Equipment Rental LLC ensures comprehensive insurance coverage for all operations:

- Equipment All-Risk Insurance
- Workmen's Compensation Insurance
- Public Liability Insurance
- Third-Party Liability Insurance

Certificates can be provided upon request.

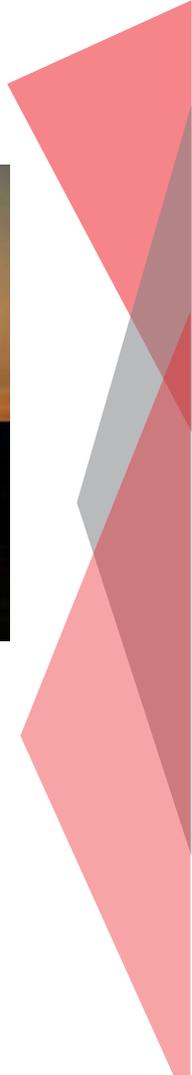

Prerequisites & Initial Condition

Before crane/equipment mobilization, the Client/Crane Hirer must ensure:

1. All site permits and clearance documents are obtained.
2. Level and compact ground for crane setup.
3. Safe and accessible entry routes for cranes and trailers.
4. Clear lifting area with exclusion zones barricaded.
5. Accurate load weights provided in advance.
6. Adequate lighting and safety conditions at the site.
7. Weather conditions suitable for safe lifting.
8. Compliance with site safety requirements.

Note: MAN Infra reserves the right to refuse operation if conditions are unsafe or violate safety standards.

Major Projects

Our parent company has extensive expertise and a proven track record in delivering major projects across multiple sectors. We bring this depth of experience, technical know-how, and best practices directly to the UAE, enabling us to execute projects to the highest international standards while meeting local requirements.

- Highway and Road Infrastructure Projects
- Industrial Zone Excavation & Grading
- Residential & Commercial Tower Developments
- Substation & Power Plant Works
- Water Pipeline Projects (DI / MS / HDPE)
- Precast Erection & Heavy Lifting Operations
- Factory Installation & Maintenance Lifting
- Civil Infrastructure & Utility Works
